Oak Wood Secondary Celebrate Culture Through Creativity!

There was a real buzz of excitement throughout Oak Wood Secondary School this week as visitors had the pleasure of viewing the pupils' **cultural exhibition**. Pupils enthusiastically talked to senior leaders about their work, confidently discussing the activities they had completed and the facts they had learnt.

Pupils used a wide range of art forms to create the impressive visual representations. The exhibition was a wonderful celebration of culture and creativity. It was lovely to see how incredibly proud the pupils were of their achievements and the work that they had produced. It was a fantastic opportunity for everyone to see learning in action and to celebrate the achievements of Oak Wood's amazing young people. A huge thank you goes out to the staff that made this event a possibility.
