AWARD WINNERS!

We are absolutely delighted to share that Central England Academy Trust's Outreach Team, in partnership with Warwickshire Virtual School, has been recognised with the Alex Timpson ARC Attachment Award in the Midlands Collaborative Category.

This award is particularly special to us because it celebrates our shared commitment to supporting some of the most vulnerable young people across the local authority. Through strong partnership working, we strive to help children and young people thrive in their schools, improve engagement and significantly reduce suspensions and exclusions.

Well done and a huge thank you to everyone involved for their dedication, passion and unwavering belief that every young person deserves the opportunity to succeed. We are really proud of what we have achieved together and look forward to continuing this important work.
